Faucet Rebuild Kits

All the parts necessary to repair the most popular tub, lavatory and kitchen faucets

Whether they're looking for Genuine OEM or Non-OEM replacement parts, here's everything your customers need. We offer complete faucet rebuilds or you may replace the trim pieces... without having to buy all of the parts separately. Choose from attractive clamshell packaging, which shows the product, or for those customers that don't require merchandisable packaging, we now have pro kits in boxes. Either way, the packaging promotes sell-through.

- Kits are available for both trim and complete rebuild — perfect for contractors, maintenance repair professionals and DIYers
- Brass Craft offers the industry's largest selection of kits in both Genuine OEM and Non-OEM versions
- Trim kits include only the visible trim pieces, adding a fresh new look to existing faucets

- Clamshell packaging is designed for full part visibility
- All clamshell kits include bilingual (English/Spanish) installation instructions as well as tool requirements
- All clamshell kits are packaged with an Electronic Article Surveillance (EAS) tag to help reduce theft
- Boxed kits are designed for the pros
- Regional assortments are customized specifically for your region

Take the Guess Work Out of Buying Kits

Assortment Benefits

- Custom-designed regional assortments are available to ensure you have the specific SKUs your customers need. And this means you only stock proven best sellers that contribute faster to your bottom line
- By carrying a regionally specific SKU mix, this will reduce slow moving SKUs, allowing for more turns per foot
- Includes all of the necessary merchandising materials that will make your display not only look great, but also function well — which sells more product
- Assortments include a variety of complete rebuild and trim kits to repair tub, lavatory and kitchen faucets
- All assortments measure 2' wide by 5' high. Perfect for behind the counter or out on the floor

Gondola not included
